- In a clinical study, 100% of hygienists said that most users would learn to use Clinpro Clear Fluoride Treatment quickly

Just press...  
and go.

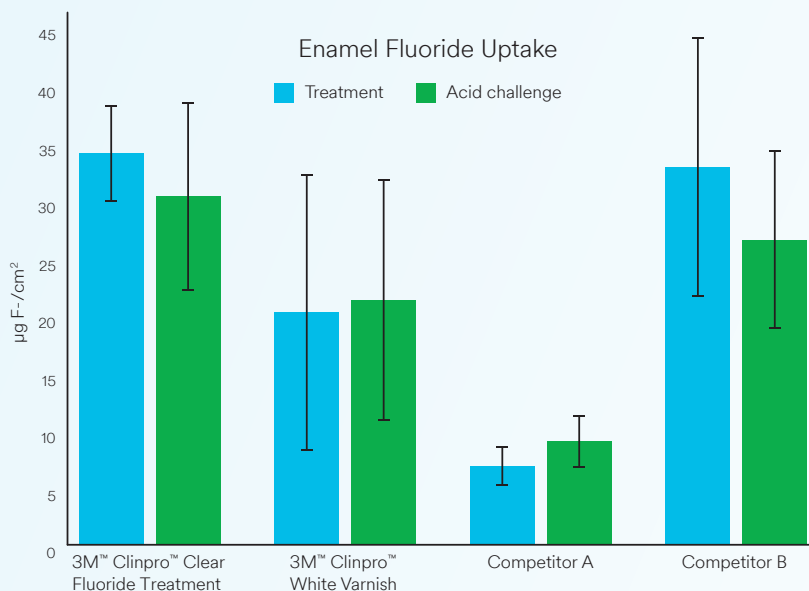

# A fluoride treatment that does more with less.

Based on patient and professional feedback, we've reimagined the traditional fluoride treatment. 3M™ Clinpro™ Clear Fluoride Treatment has a new water-based formula that's ready to apply and enables effective fluoride uptake. With less time waiting to eat or drink after treatment, Clinpro Clear Fluoride Treatment makes it easy for your patients to say "yes."

-  Clear, water-based formula in a fast and easy L-Pop™ unit dose
-  Formula is free of rosin and common allergens\* with a neutral pH
-  Stabilised calcium phosphate
-  Minimum contact time of just 15 minutes
-  Improved taste, smell, and mouthfeel
-  Suction-line friendly formula

\*See allergen disclosure at [3M.co.uk/ClinproClear](http://3M.co.uk/ClinproClear)

With soluble fluoride ions immediately available to deposit on the tooth, 3M™ Clinpro™ Clear Fluoride Treatment is a 2.1% sodium fluoride solution that provides similar fluoride uptake as a traditional 5% varnish.

After treatment and after acid challenge, the enamel fluoride uptake (EFU) of Clinpro Clear Fluoride Treatment is statistically not different from products tested.
